I am so sorry for your loss. Wishing you and your family courage and peace during this time of mourning. Viswa had a tremendous impact on all who got to know him. He will be missed by everyone that knew him. He was a dynamic, intelligent and a kind individual. I have had the opportunity to work with him at Metro for over a year. Viswa was always looking for ways to make things better at work and providing support to his team members as needed. He challenged everyone to think outside the box never accepted status quo or only one way of doing things. Viswa loved his family. You could hear the pride in his voice when he discussed his children. Metro enterprise architecture team would not be the same without him. May his soul rest in peace. Shanky

My deepest Condolences to the entire family of Viswa, I considered Viswa a friend and a colleague. I first met Viswa on our New Employee Orientation day when we both joined WMATA together in 2014. It was obvious from our first conversation that he was brilliant man and had the qualifications and experience to do great things. From there, I interreacted with Viswa on many occasions over the years and my respect for him grew. Besides his obvious intelligence, the quality that always comes to mind when I think of Viswa is how emotional steady he was and how he put the organizations interests ahead of his own personal goals. He was always the same happy, smiley and professional person. I feel blessed to have known and worked with Viswa. Frank Palmeri

**All Ex Colleagues -Minafax/Data Decision** posted:

Dear Panicker family, Our hearts are filled with an inexpressible sadness to hear about the sudden demise of our colleague, friend, brother, mentor and Boss Vishwa Mohan. All of us have extreme fond memories of working with VM through good times and bad. We have learnt a lot from him and shared many memories and stories that have helped us till date. Although he was our boss, he was always our friend who fought for us and our well-being. At Minafax-an employee and Data Decision- which he owned, he worked like it was his own company. His passion, dedication, compassion and thinking were far ahead of his time. Although we all left in 1990's, this WhatsApp group keeps reminding us that we never lost touch and continued as if we had met yesterday. We have never stopped reminiscing about the good times we had together right from the first hardware order to the many software implementations and all largely due to his efforts. He always strived to pay our salaries on time and was open about any issues that we discussed. As ex-employees of the Minafax and Data Decision group we express our deepest sympathies to you and your family and offer any support during this time of grief. From all ex-employees of Minafax /Data Decision Group.-----Apart from being a boss to many of us, VM was a man of good times. I remember post Minafax, at Data Decision was his love for food outside of all his IT and business. After a long and hard day's work, the day would never end - Sajeev, Cliffy, Murali and few others- it would always be that life was normal. During the day though it was all about business both at Minafax and DD: Beta this and Beta that Sanjeev-----Yes Sanjeev. Have heard this. 1st class train passes for all employees. I recollect this when I went to Data Decision . One of sales guys walked in to office after a long day. He met VM and discussed the day's work and after that saw him sitting on the computer and relaxing and playing games. I was curious and looked at VM . VM said he encouraged staff to relax after hard day's work . His style was unique the way he treated his employees. Mohan----- This method of work can only be heard about in today's Googles and Microsoft's of the world. This style was already being practiced decades ago by VM. He was often being compared with Sam Pitroda (mainly for looks) who used to be the tech advisor to the then Indian gov. Subu----- From all ex colleagues of Minafax/Data Decision who valued him as great Boss, friend, guide, mentor and above all a great human being. Our respects and prayers !!!

Our heartfelt condolences! He was my boss who interviewed me for my first job when I was in Madras(Nexage). When he comes to visit Madras(from USA), the whole team prepares for his

visit and make sure the projects are on track. Even though our families are related, I kept my distance with him because he was my boss. Later in the journey, we became good friends and stayed together in Chennai. We had some good times together and exchanged some stories over the drinks. He liked buddha Musics. He was my mentor in the initial stages of my career in India and when I came to US. I learned a lot from him that helped me in my entrepreneurial journey. He is proud of his family and is always willing to help the people surrounded him. Thank you Viswaettan. You will be always remembered in my life.Promod Antony.
