“ It is difficult for me to to put in words how much Beryl meant to me. We have been friends for close to forty years and in many ways she was like a sister to me. We spent many hours together and had such great times. We know many people in our lifetime but can generally count only a few as truly best friends, Beryl was one of my best. We lived beside each other in Lovettesville and naturally enjoyed each other's company. Beryl loved to paint and blessed me with some of her artwork, which I will cherish for the rest of my life. Our loss is heaven's gain. I will miss you my friend. My home number is 540 749 2598 should the family want to contact me. Joan Sturdivant

“ Beryl was very well liked in the Town of Lovettsville. On of the proudest moments I can remember is adopting our children from Seoul, Korea and taking them to meet their Grand pop and Granny. She took care of them and taught them to always be happy among other things that are too many to mention  
You will be greatly missed Granny
