

Lisa Ann Kerns

December 14, 1968 - December 1, 2019

Lisa Kerns was always a straightforward person. Some misunderstood her but those that really knew her saw how big hearted she truly was. Her friends and family knew she was a perfectionist in most everything she did. She loved her family very much. She always put her daughters, Cassidy and Jennifer first and always gave them all they needed and tried hard to give them whatever they wanted. Through her short life she battled many injuries and illnesses successfully. She was a "fighter".

She enjoyed rafting, ATV riding, traveling and geocaching. She also was an avid reader with Stephen King being her favorite author.

I learned a lot about life from her. I learned to be a better person from her. She was always able to "slow my roll" and be the "wind in my sail" throughout our relationship. She gently guided me, sometimes pushed me and always stood behind me with a love like no other. No words can explain how much I miss her. With all my love –Butch

Comments

“ My dear Lisa,

You took on every kick in the gut with no holds barred ... you loved Butch with absolutely everything in you ... you loved and provided for your girls unconditionally ... Lucas is being greatly deprived of a wonderful grandmother.

The impact you had on my life in such a short time will be remembered always.

Go Rest High On That Mountain ... you deserve to rest peacefully.

Love you.

“ I have so many memories of Lisa we cried, laughed and disagreed on many subjects but our 30 plus year friendship/sisterhood has me feeling blessed to have known her she was a beautiful soul and I will miss her so much and hold her close to my heart when I see a butterfly or something that is purple and beautiful I will think of her . She was the true meaning of what a mother is her devotion to her two daughters was always her first priority... until we meet again sweet lady keep watching over us
