“ I knew about Steve long before I met him. When I joined the University of Nairobi there was an old gentleman named Andrew Craig, now deceased. 'Uncle Craig' used to do door witnessing to every room in the males halls of residence. When he came to my room in Hall 1 and discovered I was already a Christian he pointed to the floor above me and said: you must get a First Class Honours like Steve Musau, a Christian graduate who used to stay in room 2.. . He is now a Chartered Accountant (ACA), the world's most difficult exam in accounting. Any time I met him after that he would always remind me Musau's feat, a mark of excellence and a good testimony. I got to know Steve in the Christian Family Fellowship (CFF) in 1993 many years after I had first heard about him. I found that his coming deep faith and excellence extended to his work and family. It was always evident that Steve loved Miriam and their boys deeply. He was committed to his family and the institution. When we served in the leadership of CFF, I saw him help restore a brother who was caught up in sin: he was gentle and kind but not without clarity over the matters of faith and purity.  
RIP dear brother. And may God give comfort to Miriam and the family. Tim Kamau Ngotho.
